Integrated Pest Management Plan Appendix 1 Pesticide Use Notification 2016-2017

Dear Staff, Parents, and/or Guardians:

Muroc Joint Unified School District has implemented an Integrated Pest Management (IPM) Program designed to effectively control pests using a combination of techniques. Pesticides that pose the absolute least possible hazard and are effective in a manner that minimizes the risk to people, property, and the environment may be used to establish these measures.

Pursuant to the Healthy School Act of 2000, our district is required to notify staff, parents, and/or guardians of the name of all products that may be used on our school sites. The following is a list of the products:

<u>Name of Pesticide</u>	<u>Manufacturer</u>	<u>EPA Reg. Number</u>	<u>Active Ingredient</u>
Round-Up Pro-Max	Monsanto Corp	524-579	Glyphosate, Glycine
Tengard One Shot	UPI	70506-6	Tricetin
Demand EZ	Syngenta	100-1232	Lambda-cyhalotrim
Terro PCO	Nisus Corp	149-8-64405	Sodium Tetraborate Decahydrate
Suspend SC	Bayer	432-763	Deltamethrin
Termidor SC	BASF	7969-210	Fipronil, phenyl
Cy-Kick	BASF	499-470	Cyfluthrin
Maki Mini Blocks	Liphatech	7173-202	Bromadiolone

Facility site inspections are scheduled weekly and if necessary the above products may be applied.
